

3-plus Privacy Statement

3-plus' business is built on trust, honesty, and integrity. These traits permeate all aspects of our operations, including our web site.

Occasionally, through the use of this web site, certain identification data may be requested from visitors.

This data is acquired through the use of forms, filled out by the visitor, and transmitted to 3dStructures as e-mail.

We recognize that you expect this information to be considered private and confidential. This information is used solely by **3-plus**.

We do not provide or sell this information to any outside sources.

The information is added to our databases, and used only for follow-up contact, mailing software sales information, seminar announcements, the 3+ newsletter, and for software update notifications.

3-plus' ISP (Internet Service Provider) does maintain web access logs that allow them to monitor visits to each of their web sites.

This maintenance of web site logs is standard procedure for all ISPs.

The data acquired for these web logs consists of the IP address of the visitor, the date and time of the access, the type of browser used, what specific web pages were visited, and what page was current when the site was exited.

Web access logs are used for the statistical analysis of the web site, to determine when traffic is highest and the most popular pages.

This data does not identify specific users.

The **3-plus** discussion forums are public in nature and anyone may browse their content. These discussion forums are intended as a source of free information exchange between our users and other interested parties.

When submitting a message to these forums, visitors are asked for their e-mail address. This e-mail address becomes part of the message and is available to anyone accessing the forum.

Should any of your contact information change, your records at **3-plus** can be updated by re-registering, or by contacting **3-plus** directly.

We feel it is imperative that we have up-to-date contact information on all users, so that we can keep you properly informed and respond to support issues.

Questions about this web site, the data collected, and its uses may be e-mailed to <info@3-plus.eu> or telephoned to +32 474 992 810.

Inquiries should be directed to <jef.joris@3-plus.eu>
